The graph shows a plot of vertical position versus horizontal position with various phases marked:

- **Slope**
- **Approach**
- **Takeoff**
- **Landing**
- **Landing Transition**
- **Flight**

Each phase is represented by a distinct line color:

- Slope: Dashed black line
- Approach: Blue line
- Takeoff: Orange line
- Landing: Green line
- Landing Transition: Dark red line
- Flight: Purple dotted line
